

### ***Student Report***

I was an exchange student at Montana State University for two semesters. During nine months there, I got lots of experience.

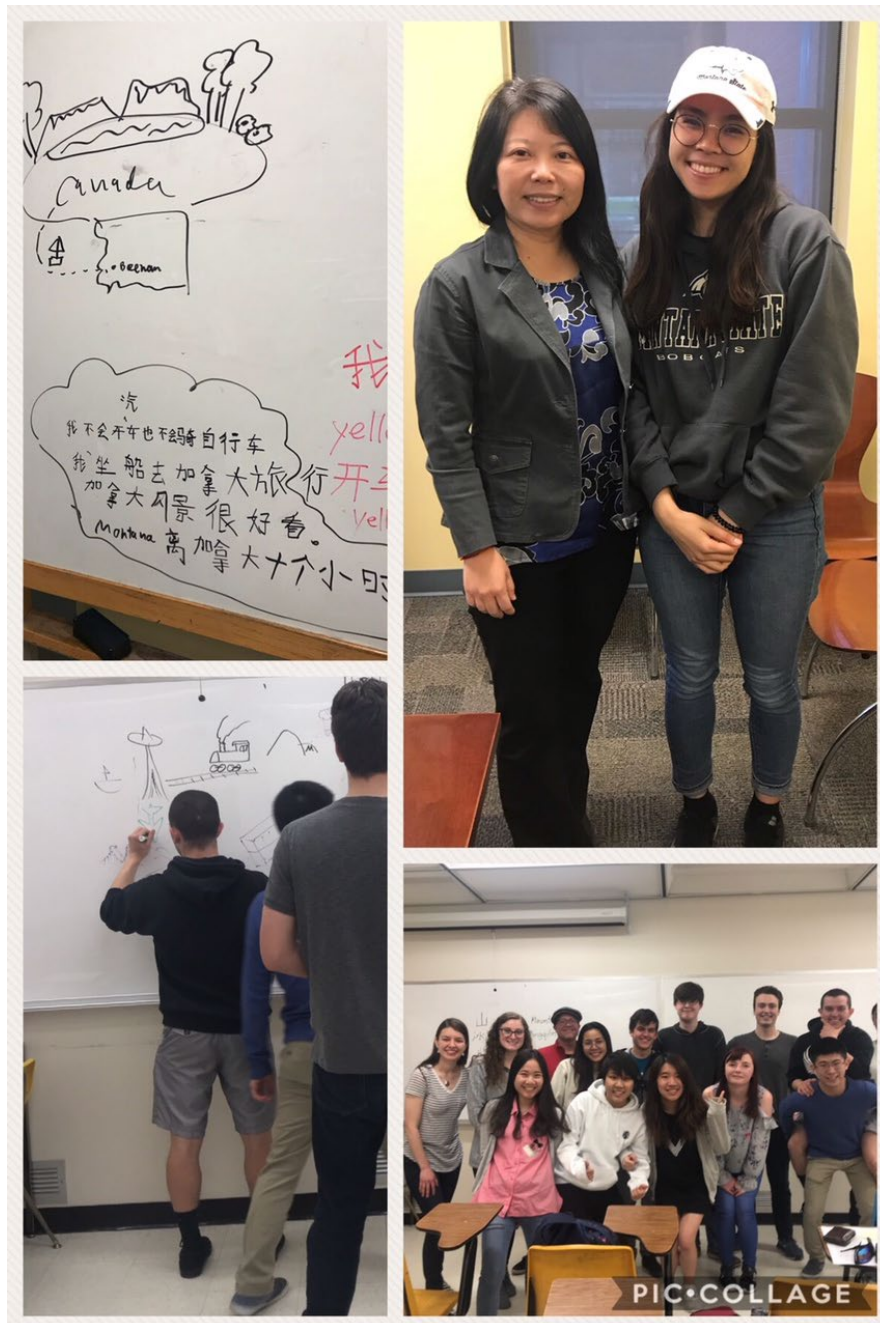

- I tried many activities: skiing, Hiking, Camping, Ice skating, watching football game.

- I met a lot of friend who came from many different places so, I got a chance to learn new culture from them

-I took two Chinese classes and I decided to keep learning Chinese.

Finally, I am so glad that I got a chance to be an exchange student in Montana for almost a year.

This will be one of my best experiences forever.
